Cooler for kegs Metos KEG CKC8

Product information

SKU	4116816
Productnaam	Cooler for kegs Metos KEG CKC8
Afmetingen	1350 × 590 × 860 mm
Gewicht	83,000 kg
Capacity	8x 20 or 2x50 litres keg
Technical information	220-240 V, 13 A, 0,25 kW, 1NPE, 50 Hz, 45 dB
Energy class	C Energy class certificate
Type of the refrigerant	R-134a
Quantity of refrigerant [g]	150

Description

The Metos KEG CKC8 refrigerator is designed especially for designed especially for cold-storage of KEG beer barrels, just for them in the proper temperature.

The Metos KEG CKC8 refrigerator fits eight 20-litre or two 50 litre KEG beer barrels. The cooler is equipped with an electronic thermostat and its fan distributes cold air evenly throughout the entire cooler. The temperature adjustment +2°C...+10°C.

Inner side of the refrigerator is polished stainless steel SS304, exterior painted black (RAL9011). The instrument has self-closing doors and eight adjustable legs. The automatic defrosting of the cooler, the

smooth surfaces and the condenser's good position make it easy to keep the device clean. The unit will sound when the temperature sensors are damaged.

- two doors
- capacity 8xKEG 20 l 2xKEG 50 l
- temperature adjustment +2°C...+10°C.
- the inner side of the instrument stainless steel SS304, exterior black
- fan cooling
- automatic defrosting and evaporation of drain water
- electronic thermostat
- refrigerant R134a
