

## Biowaste pulper Metos IMC WasteStation

### Product information

Artikelnummer	4121552
Productnaam	Biowaste pulper Metos IMC WasteStation
Afmetingen	1000 × 700 × 900 mm
Gewicht	192,000 kg
Technical information	400 V, 16 A, 4,1 kW, 3NPE, 50 Hz CW: 15 HW: 15 Drain: ø 54 mm

### Description

WasteStation reduces the volume of food waste by up to 80%  
WasteStation reduces the mass of food waste by up to 60%  
Higher capture rate - High capture rates improve the quality of the "grey water" going to drain (less suspended solid particles), aiding local water authority approval.  
Self rinse system - following each operation the machine undertakes a quick rinse cycle preventing any build up of food.  
Range of screen sizes - Giving the option to recover greater waste levels or concentrate on pure volume reduction.  
Fully enclosed system - prevents food entering the unit, keeping the machine clean and free of waste and reducing operational noise.  
Self cleaning operation - WasteStation can undertake a thorough clean ensuring the whole system is free of food and grease, vastly reducing the labour time required to operate the machine.  
Self emptying - this eliminates the need for staff to empty the auger

assembly reducing labour times required to operate the machine  
Visual control panel - Kitchens are a noisy environment, WasteStation incorporates a simple LED display to allow monitoring of the state of the equipment during operation.  
Intelligent electronic sensor - detects when the bin is full.

Standard equipments:  
2 biowaste bins
