Description

The Metos Maxiglass MG3/315GCS glass door cooler is mainly designed to display bottled drinks and beverage containers in an aesthetically pleasing manner as well as the preservation of various drinks at a suitable temperature. Enhanced technology and unit components make the cooler more energy efficient and therefore more environmentally friendly without having to make any compromises in the appearance of the unit or its cooling capacity.

The cooler has a capacity of 315 litres and holds 366 0.33 l bottles. Effective and energy-efficient fans ensure the uniform and quick

circulation of cold air in the entire cooler. Refrigerant R600a used is environmentally friendly. Cooler temperature can be adjusted between +2°C...+18°C (factory setting +6°C). Temperature regulation and indicator are located on the exterior surface of the cooler. Glass door frame and guard plate are made of stainless steel, the exterior of the unit is an anthracite and steel lining.

The Metos Maxiglass MG3/315GCS door cooler has six adjustable flat shelves. LED lighting provides bright and uniform lighting and temptingly accentuates the drinks. The lighting has a separate switch. When the lighting is switched off, the cooler will continue to be cooled.

Smooth surfaces and removable shelves and shelf carriers simplify the cleaning of the unit. The cooler has rapid automated defrost function, featuring evaporation of defrost water. The door has a lock.
