

Metos Aqua Safe Water Protection Block

Product information

Artikelnummer	4214006
Productnaam	Metos Aqua Safe Water Protection Block
Afmetingen	210 × 130 × 90 mm
Gewicht	1,050 kg
Technical information	230 V, 1NPE, 50 Hz

Description

AquaSafe is a sensor-controlled water fuse with automatic circuit breaker to avoid water leakage.

AquaSafe is easily mounted on the water pipe and delivered with 4 meter sensor tape, clutch jack and a 1/2 "Danfoss solenoid valve EV-220B made of dezincification-free brass.

AquaSafe protects against unwanted water leakage. In the event of a leak, the pumps and electronics, thus protecting sensitive equipment.

The included sensor tape is self-adhesive and facilitates installation and provides very good security.
