# Food transport trolley Metos Thermobox F-Banquet

## Product information

| | |
|---|---|
| SKU | 4216306 |
| Productnaam | Food transport trolley Metos Thermobox F-Banquet |
| Afmetingen | 790 × 890 × 1740 mm |
| Gewicht | 127,000 kg |
| Capacity | 17 x GN2/1-65 |
| Technical information | 230 V, 6 A, 1 kW, 1NPE, 50/60 Hz |

## Description

Metos Thermobox F-Banquet is made for serving large amounts of food quickly and efficiently. Ideal for arenas, hotels and conference facilities. The cabinet's large volume, combined with several guides, creates a flexible and efficient food storage and transporting. The heating cabinet's hot air fan ensures safe and high-quality conditions for storage and transportation of warm food. The convection heat reacts fast to temperature changes and it is worth choosing whether e.g. the door is opened repeatedly during storage.

The trolley is insulated with polyurethane, which expands under high pressure and unites the trolley's construction and the inner chambers into a strong and well-insulated unit. The trolley's energy-efficient insulation ensures safe and high-quality conditions for storage and transport of food. The inside of the trolley is a fully welded aluminum container and has GN guides in stainless steel with rivets.

Large rubber wheels as well as bumpers and ergonomic handles around the stroller make the stroller easy to handle and light. The robust door opens comfortably by pulling the handle, which is integrated in the trolley frame. The door opens to the side, 270 degrees.

- the capacity is 17xGN2/1, inner measure: 535x667x1405 mm, guide distance 80 mm
- the exterior is black ABS plastic
- four hot-dip galvanized steel 160mm wheels with rubber tires, two swiveling with brakes and two fixed without brakes
- the exterior of the black trolley is made of ABS plastic
- the door inside is made of stainless steel and the outside is made of ABS plastic
- handles on the sides in plastic-coated steel
- the bumper is made of galvanized steel and coated with PVC plastic
