Food transport trolley Metos Thermobox FF210

Product information

SKU	4216440
Productnaam	Food transport trolley Metos Thermobox FF210
Afmetingen	525 × 770 × 1605 mm
Gewicht	70,000 kg
Capacity	6+8 x GN 1/1-65
Technical information	230 V, 10 A, 1,1 kW, 1NPE, 50/60 Hz

Description

Metos Thermobox FF210 food transport trolley is an efficient solution for heat storage and transportation of warm food. The trolley has two cabinets stacked on top of eachother. The heating cabinet's hot air fan ensures safe and high-quality conditions for storage and transportation of warm food. The convection heat in the F-model reacts faster than the E-model to temperature changes and it is worth choosing whether e.g. the door is opened repeatedly during storage. The temperature control unit for the heating cabinet is located at the top of the trolley and has a large digital temperature display.

The trolley is insulated with polyurethane, which expands under high pressure and unites the trolley's construction and the inner chambers into a strong and well-insulated unit. The trolley's energy-efficient insulation ensures safe and high-quality conditions for storage and transport of food.

The trolley can be used in small spaces. The trolley is easy to clean as its inside is completely made of stainless steel and has pressed GN guides without any joints. Large rubber wheels as well as bumpers and ergonomic handles around the trolley make the stroller easy to handle and light. The robust doors can be opened comfortably by pulling the handles, which are integrated in the frame. The door opens to the side, 270 degrees.

- the capacity is 6xGN1/1,inner dimension: 330x540x510 mm + 8xGN1/1,inner dimensions: 330x540x670 mm, guide distance 80 mm
- the smaller cabinet on top of the bigger cabinet
- temperature range: +40°C...+90°C
- four hot-dip galvanized steel 160mm wheels with rubber tires, two swiveling with brakes and two fixed without brakes
- the wheel bracket is made of hot-dip galvanized steel
- the exterior of the red trolley is made of ABS plastic
- stainless steel handle and PVC plastic corner, extra handles on the sides at the back edge
- the bumper is made of galvanized steel and coated with PVC plastic
- Shuko connector connection, 1,5-2 m spiral cord and holder for plug

Accessories(charged separately):

- truck tow bar
- door with window
- two extra handles
- address card holders A4, A5, A6
- Ø200 mm wheels, two directionally locked and two with brake
- terrain wheels
- blue or black color without extra price, own color, image or logo for extra price
- central brake
