Description

The Metos G-2 L is a mechanical can opener with a long bar and plated steel base.

Open your cans in a few quick strokes with the G-2 L mechanical can opener. This can opener has an extra-long adjustable bar that you can install even under the counter and easily open cans of many size.

Thanks to the stainless steel screw fixing, you can be sure that this reliable can opener will withstand repeated daily use.
The can opener features a durable stainless steel blade that penetrates and cuts through the lids of aluminium cans.

Designed for quick and easy maintenance, the can opener can be disassembled and reassembled for easy cleaning and disinfection.

- plated steel base
- long bar, 55,9 cm
- can be fixed to a table

- used for cans with a maximum height of max. 43 cm
