# Cold drawer Metos Proff Eco NT-800-GN3-MDU

## Product information

| | |
|---|---|
| SKU | 4334000 |
| Productnaam | Cold drawer Metos Proff Eco NT-800-GN3-MDU |
| Afmetingen | 800 × 650 × 900 mm |
| Gewicht | 92,610 kg |
| Capacity | 4 x GN1/1-150 |
| Technical information | 220-240 V, 10 A, 0,368 kW, 1NPE, 50 Hz |
| Energy class | D Energy class certificate |
| Type of the refrigerant | R290 |
| Quantity of refrigerant [g] | 80 |

## Description

Cold drawer Metos Proff NT-800-GN3-MDU works as a handy work table while offering the ingredients within the arm's reach. Metos Proff refrigeration and dispensing equipment are designed for different purposes of the professional kitchens and can function as separate units as well as the complete sets of distribution lines. Convertibility, easy-to-operate elements, seamless connectivity of the furniture and equipment and last but not the least, their hygiene, ergonomics and easy cleaning - these are the features that Proff-equipment brings to your kitchen.

Metos Proff NT-800-GN3-MDU cold drawer counter has drawers for four GN1/1-150 containers. Over extension telescopic slides enable the easy

replacement of the GN-containers as well as the flawless and quick opening and closing of the drawers.

The device is made of stainless steel and has a smooth, insulated neutral countertop with a rounded front edge. The temperature adjustment range of the refrigerator is from +3°C to +10°C. The cast urethane insulation keeps the cool air inside the device and the efficient cooling fan distributes the air evenly all over the drawer. This cold drawer counter has an electronic control with a digital temperature display. The control panel is retracted and thus protected from any collisions.

Hygienic stainless steel countertop, rounded corners and tool-free removable drawer slides make it easy to clean the device. Ergonomic and smooth surface with plastic handles can be easily kept clean. Removable and washable filter at the front part of the condenser keeps the cool air inside the device clean and at the same time prevents the device from getting dirty. The device has an automatic defrosting and evaporation of the meltwater, as well as a standard drainage possibility. The sealing gaskets of the drawers can be replaced without any tools. The cool drawers are supplied with connectors for power cables at the bottom of the device, making it easier to keep the floor under the device clean.

- capacity 4xGN1/1-150 drawers (GN-containers are not included in the delivery)
- over extension telescopic slides
- temperature adjustment range is +3°C... +10°C
- digital temperature screen
- electronic control
- stainless steel structure
- cast urethane gasket
- removable and washable condenser filter
- automatic defrosting and evaporation of meltwater
- easy-to-change gaskets
- nondetachable refrigerator at the right side of the device
- adjustable feet +20...-45 mm
- refrigerant R290

THE DELIVERY INCLUDES:

- connectors for power cables
