UltraVent ventilasjonshette Metos XS 6 2/3 elektrisk

Product information

SKU	4342346
Productnaam	UltraVent ventilasjonshette Metos XS 6 2/3 elektrisk
Afmetingen	mm
Gewicht	72,000 kg

Description

The high suction power of Metos UltraVent® XS hood effectively condenses steam released from the oven and filters out grease particles from the cooking air. The steam produced in the oven is conducted via the oven's steam pipe and when opening the oven door. In this case, the special filters of the UltraVent® XS hood filter and break up released steam and annoying smoke produced during roasting and grilling, thereby keeping the indoor air cleaner.

The Metos UltraVent® XS hood is intended for Metos SelfCooking Center XS and Metos Combimaster Plus XS oven models.

Using the integration kit (optional extra), Metos XS and UltraVent® Plus can be retrofitted.

Metos UltraVent® XS hood is an excellent alternative to complex and bulky ventilation systems, as it does not require an extraction connection, rather the waste water is conducted via the oven into the

drain. In addition, the hood reduces the oven's cooling requirement, thereby also reducing water consumption.

By using the Metos UltraVent XS hood, the Metos SelfCooking Center XS and Metos Combimaster Plus XS ovens can be installed even in demanding sites, such as a restaurant's open-plan kitchen or shop service desk. This fuss-free appearance of the stainless steel hood is appealing and the even surface makes it easy to keep the appliance clean.

- intended for Metos SelfCooking Center XS and Metos Combimaster Plus XS oven models
- high blowing power
- one grease filter
- the stainless steel grease filter can be washed in the dishwasher
- no separate extraction connection needed
- automatic power increase when opening the oven door
- stainless steel structure
- intended for left-handed and right-handed ovens
- for electrical ovens
- can be retrofitted
