### Product information

---

SKU	4344072
Productnaam	Lava rock grill Metos Diamante D74/10PLGP with open cupboard
Afmetingen	800 × 730 × 870 mm
Gewicht	160,000 kg

### Description

The size of the baking tray of the Metos Diamante D74 / 10PLGP lava stone grill with an open base is 790x490 mm. The grill has two cooking zones that can be controlled with the control knobs on the control panel. The delivery of the lava stone grill includes a meat grate made of stainless steel.

The lava stone grill has a piezo ignition. The temperature control is operated by a gas valve with which the size of the flame can be adjusted. The height of the frypot is also adjustable. The grate, lava stone basin and grease trap under the burners are removable and the appliance is easy to clean. The stainless steel burner is equipped with a flame arrestor that prevents gas from entering the flameless device.
