Technical information	220-240 V, 0,105 kW, , 50/60 Hz

Description

The Metos OptiMe Cup Warmer (black) is an accessory designed for fully automatic Metos OptiMe coffee machines. Its color and design language go well with the machine. The cup heater saves table space and protects dishes from dust and breakage.

Heated cups enhance the taste of coffee. The three levels of the heater offer the possibility to group cups of different sizes into clear groups. Good order at the coffee point also speeds up the passage of the self-service point and helps to avoid queues during peak times.

- can be installed on the left or right side of the OptiMe
- three heated levels: cups can be placed on two shelves and on top of the heater
- capacity (stacked): approx. 140 espresso cups or approx. 60 coffee cups
- the color of the panels is black

FACTORY OPTIONS (must be ordered with the device):

- panels in special colors (brown, red, pine, light oak, dark oak).
