## Description

Convection oven Metos Bistrot Snack 434-12 Digital is a powerful, compact, easy to use digitally controlled oven for cooking and baking bakery products.

You can use this handy Metos Bistrot Snack 434-12 Digital convection oven for baking up to four full trays at a time. It's powerful fan will distribute the hot air within the oven space evenly, resulting in an even baking result on each tray. The size of the baking tray is 460x330 mm, runners pitch is 75 mm and the temperature control range is 30°C...260°C. The oven has a manual humidifier.

For this oven you can program and save 99 three-step baking programs. During the baking you can see the programmed and remaining time on the screen as well as the programmed and actual temperature of the oven chamber. The oven has a glass door and an inner light in the oven

chamber, so you can easily follow the products while baking without opening the door. Stainless steel structure and removable runners make it easy to keep the oven clean.
