

Induction range Metos 7410 TCI

Product information

Artikelnummer	4228143
Productnaam	Induction range Metos 7410 TCI
Afmetingen	800 × 730 × 270 mm
Gewicht	80,000 kg
Technical information	400 V, 25 A, 14 kW, 3N, 50 Hz, 50 dB

Description

Table model induction cooker with four cooking zones á 3.5 kW. Totally 14 kW. The cooking zone has a diameter of 260 mm. The cooker is completely made of stainless steel. Variable power control. Uniform seamless cooking area. Induction range produces virtually no excess heat into the kitchen. The power control responses quickly. Low energy consumption.

The tableware used on this induction cooker must have a bottom of magnetic material due to the operating principle. Steel pots with a sandwich or a compound base bottom works best on the cooker. Most cast iron cooking pots works also. Aluminium pots are not recommended and they usually do not work.
