Description

The Metos Memo M61 Slim is a sturdy and durable combination oven. A clear operating panel and easy-to-select functions combined with easy cleaning of the oven surfaces make the oven easy to use and clean.

The Metos Memo M61 Slim combine furnace has 6 outlet pairs with outlet interval of 60 mm. The outlets can be used with GN1 / 1 pans. The outside width of the oven is only 51 cm, which makes it suitable for a narrow space.

The heating functions of a direct steam oven are adjustable steam boiling + 50 ° C to + 130 ° C, convection air + 50 ° C to + 260 ° C and combination operation + 50 ° C to + 260 ° C. The three switches on the control panel make it easy and quick to control the oven. The automatic directional fan ensures a steady cooking result. Manual vapour extraction in the chamber.

The structure of the Metos Memo M61 Slim combination oven is of stainless steel. The seamless and smooth surfaces of the chamber with rounded corners, hinged inside, opening fan cover and removable tray rack make it easy to keep the device clean. An external wash shower is available as an accessory.

The double-glazed, left-handed door is equipped with heat-reflecting slotted glasses that, together with the air gap between the glasses, reduce heat radiation while retaining heat inside the unit, avoiding unnecessary energy loss.
