Technical information	400 V, 32 A, 14,79 kW, 3NPE, 50 Hz

Description

The Metos Sensup 6 is a durable and easy-to-use Rotisserie grill with a large, three-sided glass surface and chrome-plated details that stand out from the black frames. These, together with the red inner wall, create a retro-inspired impression and bring out the products for sale in an attractive way. In this model, the base of the grill is a Metos V110 LS heated self-service display with two shelves. Together, the grill and the self-service display form a powerful pair that takes up less than a square meter of floor space, which is suitable for both the grilling of products and the self-service sale of packaged products.

The Sensup 6 has six frying baskets and can cook 20 to 30 chickens at a time. Shortcut keys and a large display make using the device quick and easy. The Sensup series grills are pass through models with front and

rear oven doors. The solution makes it easier to load products and to clean the grill.
Rotisserie grills are specially designed for in-store use, where cooking takes place near a service counter and the production is on display for customers. The rotisserie grill with its large glasses communicates effectively to customers the possibility of buying a crispy, freshly fried chicken. Metos Sensup grills have an automatic steam cleaning function. The program lasts 15 minutes and also effectively removes stubborn dirt. This, along with quick-release baskets and other parts, speeds up daily cleaning routines.

ROTISSERIE-GRILL METOS SENSUP 6

- rotisserie grill with double doors
- capacity: 20-30 chickens (depending on weight)
- six frying baskets
- fast and uniform cooking with hot circulating air and infrared heating
- the baskets are quick to fill and the rotating movement helps to get a steady cooking result
- automatic switching to warm keeping mode at the end of the cooking cycle
- easy-to-use short-cut buttons and a user-friendly display
- the large glasses on the front and right side bring out the products well
- the enameled inner coating is durable and prevents dirt from sticking
- efficient lighting and red enameling of the interior bring out the products attractively
- a washing program that effectively removes dirt with hot steam
- a built-in drip pan for grease and removable inserts make it easy to clean the appliance
- the doors are also easily removable for cleaning
- effectively insulating, double glazing and tightly closing door reduce waste heat generation
- digital thermostat, temperature control range + 70°C... + 240°C
- power cord length 2.5 m

SELF-SERVICE DISPLAY METOS V110 LS

- heated self-service display for self-service sale of packaged grilled products
- serves as a stand for the Metos Sensup grill
- two heated stainless steel shelves
- the upper shelf is set to the rear, allowing products to be easily picked up
- capacity 16-20 broilers depending on the size of the packings
- large side glasses improve the visibility of the products
