Afmetingen	1150 × 1065 × 975 mm
Gewicht	300,000 kg
Capacity	48 chickens/ hour
Technical information	400 V, 20 A, 12 kW, 3NPE, 50 Hz CW: 1/2"

Description

Metos D-ONE, is a stylish and versatile Rotisserie grill that also serves as an oven. Inside the stylish, black outer shell is the latest heat generation and control technology. All functions of the device are controlled via an easy-to-use touch screen. The display guides the user with clear icons and ready-made programs for optimal cooking results. In addition to circulating hot air and infrared heating, D-ONE also uses the humidification function for cooking. This makes the D-ONE faster than traditional Rotisserie grills - 24 crispy grilled broilers are completed in less than half an hour. The unit's muted black color, red interior and efficient lighting highlight the grilled products in an attractive way. Rotisserie grills are specially designed for in-store use, where cooking takes place near a service counter and the production is on display for customers. The rotisserie grill with its large glasses communicates effectively to customers the possibility of buying a crispy, freshly fried chicken
In addition to chicken, the Metos D-ONE multi-purpose grill also cooks

other products, such as pizzas, pies and gratins. With the help of a separate guide, the chamber can accommodate 11 GN 1/1 containers or GN-sized cooking racks. The device's automatic washing programs and efficient water-spraying washing arms ensure that the interior is cleaned quickly and easily. Depending on the degree of soiling, the user can select either normal washing or intensive washing.

- a multi-purpose Rotisserie grill with a moistening oven function
- capacity: 24 chickens (depending on weight)
- six frying baskets
- delivery does not include a stand
- dimensioning for 11 x GN1 / 1 containers or 11 GN-sized cooking racks
