Description

Metos Green Plus 3GR LED ESM (black) is a semi-automatic espresso machine that offers an affordable alternative to making high-quality specialty coffees. Thanks to three coffee groups and two steam taps, the capacity of the device is sufficient even at peak times. Thanks to the Easy Steam steaming function in the device, the frothing of the milk can be carried out quickly and accurately exactly according to the wishes of the barista. Turning the selector dial up produces continuous steam production. By turning it down, the user can influence the flow rate. Steam flow stops when the dial is released.

The black side panels, the shiny stainless steel that dominates the front give the machine a stylish, cool look. The LED lighting of the work area improves work ergonomics and makes the machine stand out from the dark background.
