Description

Metos Green Plus Tall 2GR is an automatic espresso machine. Its dimensioning allows dispensing into tall drinking glasses and take-away mugs (maximum height 14 cm). The espresso machine with two coffee groups is ideal for use for example in a small café or hotel. The automation monitors the functions of the appliance and starts the automatic cleaning every ten doses of coffee. The coffee groups have separate controls, so even if the automatic cleaning for one of the groups is running the coffee production of the other group is not interrupted. The black side panels, the shiny stainless steel that dominates the front and the white LED lighting of the buttons give the machine a stylish, cool look

An instructive LCD display makes the device easy to use, clean and maintain. The display tells the user the following information: boiler temperature, start settings and weekday settings, number of cups made,

water consumption, fault messages, scheduled maintenance, automatic cleanings. In addition, the device has separate gauges for boiler and pump pressures.
