Ice cube machine Metos IM-65NE-HC-Q round ice

Product information

SKU	4000951
Productnaam	Ice cube machine Metos IM-65NE-HC-Q round ice
Afmetingen	633 × 506 × 860 mm
Gewicht	53,000 kg
Capacity	26 kg/24h, bin 17 kg
Technical information	220-240 V, 2,9 A, 0,39 kW, 1NPE, 50 Hz CW: G3/4 Drain: ø R3/4
Type of the refrigerant	R290
Quantity of refrigerant [g]	110

Description

- ball cube size Ø 45 mm

The IM-65NE-HC-Q (air cooled) is self contained ice machines. The model maintain low levels of water- and energy consumption.
• A closed water circuit offers the ultimate contamination protection, by reducing the number of points at which impurities can enter the ice making process.
• Hoshizaki ice makers are micro computer controlled, controlling the ice making process to perform at its best under varying circumstances, without having to make physical adjustments.
• A stainless steel exterior with integrated door handles provides a hygienic and high quality finish.

• Foam injected polyurethane for insulation (HFC free), helps preserve the quality and consistency of the ice produced, reducing the number of production cycles.
• An easily cleanable air filter allows end users to carry out a routine cleaning schedule, extending product life expectancy and reducing the frequency and costs of maintenance call-outs.
• Removable door gaskets help prevent any heat and contamination from entering the bin as well as making your Hoshizaki product easy to clean and maintain.
