

Cold display Metos Luxor Double KP12Q2

Product information

Artikelnummer	4310707
Productnaam	Cold display Metos Luxor Double KP12Q2
Afmetingen	1200 × 660 × 1430 mm
Gewicht	260,000 kg
Capacity	536 litres
Technical information	230 V, 1,00 kW, 1N, 50 Hz
Type of the refrigerant	R452A
Cooling capacity [W]	1120

Description

Metos Luxor Double KP12Q2 is an elegant, innovative and adaptable vertical slim display that creates an attractive and exclusive environment for the products sold. In addition to the walls and shelves that are made of hardened glass, the barely noticeable shelf support system allows for an unobstructed view of the products inside the display.

The Metos Luxor Double KP12Q2 vertical display is equipped with four (1070x410 mm) glass shelves, LED-lights and flap glass doors, creating a clear and light frame for products. The display's cold area can be set to between +2°C...+10°C. The display has a cooling system with a fan, which distributes the air evenly across the whole area.

The lower part of the display is made of stainless steel with an

anti-fingerprint serigraphy surface. The lower part of the frame masterfully hides the wheels, enabling the easy movability of the display. The two, easily openable, pneumatic flap doors open to 140°. The display has an automatic melting and water evaporating system.

- four glass shelves (1070x410 mm), weight limit 20 kg/per shelf
- cold area +2°...+10°C
- two easily openable, pneumatic flap doors
- LED-lights going lengthwise on the top part of the door
- black, electronic control board with a digital screen made of glass
- HACCP alarm system
- automatic melting and water evaporating system
- stainless steel lower frame, grey silk printed display, hardened glass walls and shelves, stainless steel/PVC shelf support system
- the display works in an environment where the max. temperature is +30°C and the relative humidity is 55%

Delivery includes:

- four glass shelves with support system
