## Description

The liquid Rinza detergent is also used to clean Metos OptiMe and Cafina XT when the fresh milk system is in use. The substance enhances the washing of the appliance by breaking down minerals and preventing the formation of lime. The bottle has a convenient dosing chamber, which allows you to always get the right amount of detergent quickly and safely. When you loosen the cap of the dosing chamber and gently squeeze the jug, the chamber is filled with the correct amount of detergent (30 ml).

- is especially recommended for cleaning the Metos OptiMe and Cafina XT
- 1 liter bottle with built-in dosing chamber
- breaks down minerals and prevents the formation of lime
- enough for more than 30 uses
- dosing instructions: mix 30 ml of detergent with 500 ml of water
