Descaling agent Metos Off Calc

Product information

SKU	4136048
Productnaam	Descaling agent Metos Off Calc
Afmetingen	mm
Gewicht	0,500 kg
Capacity	500 ml

Description

Descaling small machines is easily done with Off Calc. Off Calc descaler has a low pH(1.5) and contains citric acid. It is recommended that the coffee maker should be descaled several times a year and the washing machine 1-4 times a year.

Characteristics:
An odorless, colorless liquid that effectively removes and softens lime that impairs device performance. Users and materials safe.

Instructions for use and dosage:

- used according to the operating instructions for the machine
- 100 ml to the dishwasher when the machine is filled with water
- 250 ml in the washing machine and used with standard washing program
- the coffee machine (50 ml / 0.5 l) should be rinsed a lot after descaling
