

Bratt pan Metos Prince 85L (pan 790x530x90 mm)

Product information

SKU	3755402
Productnaam	Bratt pan Metos Prince 85L (pan 790x530x90 mm)
Afmetingen	850 × 818 × 960 mm
Gewicht	134,000 kg
Technical information	400/230 V, 16 A, 10,5 kW, 3NPE, 50 Hz

Description

Effective and user-friendly Metos Prince 85L bratt pan is equipped with electrical tilting, which makes emptying of the pan more ergonomic and effortless. The sturdy bratt pan is fixed mounted onto the floor. The seamless surfaces and rounded corners make's the pan easy to clean.

L = frying zone 790x530x90 mm.

The frying surface is made of thick steel which stores heat extremely well throughout the whole frying area. The volume of the pan area is 37 liters. The temperature is adjustable between +50°C... +250°C. The preheating time is 11 minutes (+200°C).

The bratt pan has a strong electrical tilting. Tilting cannot be started if the lid is closed or the water filling (option) is in progress. The heating elements will be switched off when the pan is tilted and will be switched on again when the pan is back in the horizontal position.

- balanced lid
- stainless steel (18/8) structure, external surfaces and lid
- uniform stainless steel frying area
- electro mechanical control
- overheating protection

FACTORY OPTIONS (to be ordered together with the bratt pan):

- height adjustment 800-950 mm
- water tap
