Description

The short preheating time and strong electrical tilting makes cooking with Metos Futura 60L bratt pan more ergonomic and effortless.

L = frying zone 540x530x90 mm.

The frying surface is made of thick steel which stores heat extremely well throughout the whole frying area. The volume of the pan area is 25 liters. The temperature is adjustable between 0...+250°C. The heating time, to the set temperature, lasts for 5-6 minutes. The seamless surfaces and rounded corners make's the pan easy to clean.

Metos Futura 60L bratt pan has a strong electrical tilting, which makes emptying of the pan more ergonomic. Tilting cannot be started if the lid is closed or the water filling (option) is in progress. Manual tilting is available as a factory option. In addition, the bratt pan can be equipped with height adjustment function (factory option) and water

filling tap (factory option). Height adjustment and water filling works by pressing a button.
