Description

Coffee grounds separator on rollers for tables without bottom/base. An easily accessible arrangement must be ensured for emptying the coffee grounds separator. It must be possible to extend and retract the coffee grounds separator freely.

The height of the container can be adjusted in its base frame to up to 140 mm for a sufficient downward slope to the waste water connection (max. 200 mm above upper edge of floor/base) at the site. Note that the total height will increase depending on the design.
