

Juice squeezer automat Metos Zummo Z14 230V 1~

Product information

SKU	4117160
Productnaam	Juice squeezer automat Metos Zummo Z14 230V 1~
Afmetingen	478 × 460 × 822 mm
Gewicht	58,500 kg
Capacity	16 fruits / minute
Technical information	230 V, 6 A, 0,275 kW, 1N, 50 Hz, 69 dB

Description

Metos Zummo Z14 inox is a compact fresh juice dispenser that offers an efficient alternative for premises with higher juice demands. This version of the device is intended for service use in, for example, restaurants, cafes and conference catering. The machine squeezes 16 fruits per minute. The device's large hopper holds about 9 kg of oranges. The feeder can be adjusted for either 55-70 mm or 70-90 mm fruit.

The unique EVS (Efficient Vertical System) squeezing system moves the fruit from the basket to the cup always vertically and also cuts the fruit in the same position. This way, the peel of the fruit never comes into contact with the juice and the bitter taste of the peel and any preservative residues are not transferred to the juice. The result is a clean, fresh fruit flavor and minimal waste. The automatic filtration works so that the conveyor belt takes the seeds and larger parts of the

fruit flesh directly to the waste container. Removable parts are machine washable except for the transparent front cover.

- a model for self-service use
- table top installation
- push buttons and user guide screen
- parts easily removable and machine washable
- suitable for 5 different citrus fruits with a diameter of 55-70 mm or 70-90 mm, quick selection of size by changing the position of the classifier
- the capacity of the feed basket is 9 kg of oranges
- capacity 16 fruits per minute
- waste containers for peels 2×7 l
- automatic filtering
- stainless steel frame construction
- outer shell in stainless steel and black plastic
- safety switches
- drip tray

ACCESSORIES (to be ordered separately):

- cooling basin cabinet Fresh Cabinet
- 16 kg fruit basket
