### Description

The Metos Maxiglass Noverta LG2/250SD84 glass sliding door cooler is mainly designed to display bottled drinks and beverage containers in an aesthetically pleasing manner as well as the preservation of various drinks at a suitable temperature. Enhanced technology and unit components make the cooler more energy efficient and therefore more environmentally friendly without having to make any compromises in the appearance of the unit or its cooling capacity.

The cooler has a capacity of 250 litres and holds 215 0.33 l bottles. Effective and energy-efficient fans ensure the uniform and quick

circulation of cold air in the entire cooler. Refrigerant R600a used is environmentally friendly. Cooler temperature can be adjusted between +1°C...+18°C (factory setting +4°C... +8°C). Temperature regulation and indicator are located on the exterior surface of the cooler. Glass door frame and guard plate are anthracite, the exterior of the unit is comprised of an anthracite and steel lining. Handy sliding doors do not take up space, so that the cooler can be readily used in tighter spaces.

The height of the Metos Maxiglass Noverta glass door cooler LG2/250SD84 is 840 mm, which allows for the device to be installed beneath a workspace. The glass door cooler has two adjustable flat-shelves. LED lighting provides bright and uniform lighting and temptingly accentuates the drinks. The lighting has a separate switch. When the lighting is switched off, the cooler will continue to be cooled.

Smooth surfaces and removable flat-shelves and shelf carriers simplify the cleaning of the unit. The cooler has rapid automated defrost function, featuring evaporation of defrost water. The door has a lock and can be opened easily, handle along the length of the door.
