Grill drawer Metos Proff Eco GR-1600-GN2L-GN2L-GN2L-MU

Product information

SKU	4334034
Productnaam	Grill drawer Metos Proff Eco GR-1600-GN2L-GN2L-GN2L-MU
Afmetingen	1600 × 650 × 650 mm
Gewicht	113,830 kg
Capacity	6 x GN1/1-150
Technical information	220-240 V, 10 A, 0,37 kW, 1NPE, 50 Hz
Energy class	C Energy class certificate
Type of the refrigerant	R290
Quantity of refrigerant [g]	80

Description

Metos Proff GR-1600-GN2L-GN2L-GN2L-MU grill drawer counter's height is 650 mm, which allows placing grill units on the top of the counter. Metos Proff refrigeration and dispensing equipment are designed for different purposes of the professional kitchens and can function as separate units as well as the complete sets of distribution lines. Convertibility, easy-to-operate elements, seamless connectivity of the furniture and equipment and last but not the least, their hygiene, ergonomics and easy cleaning - these are the features that Proff-equipment brings to your kitchen.

Lowered Metos Proff GR-1600-GN2L-GN2L-GN2L-MU grill drawer counter has drawers for six GN1/1-150 containers. Over extension telescopic slides enable the easy replacement of the GN-containers as well as the flawless and quick opening and closing of the drawers.

The top surface of the grill drawer counter is well insulated, which prevents the heat from the grilling devices from reaching the cold spaces. The temperature adjustment range of the refrigerator is from +3°C to +10°C. The cast urethane insulation keeps the cool air inside the device and the efficient cooling fan distributes the air evenly allover the drawer. This cold drawer counter has an electronic control with a digital temperature display. The control panel is retracted and thus protected from any collisions.

Hygienic stainless steel countertop's rounded corners and tool-free removable drawer slides make it easy to clean the grill drawer counter. Ergonomic and smooth surface with plastic handles can be easily kept clean. Removable and washable filter at the front part of the condenser keeps the cool air inside the device clean and at the same time prevents the device from getting dirty. The device has an automatic defrosting and evaporation of the meltwater, as well as a standard drainage possibility. The sealing gaskets of the drawers can be replaced without any tools. Grill drawer counter is supplied with connectors for power cables at the bottom of the device, making it easier to keep the floor under the device clean.

- the height of the device is 650 mm
- capacity 6xGN1/1-150 drawers (GN-containers are not included in the delivery)
- over extension telescopic slides
- temperature adjustment range is +3°... +10°C
- digital temperature screen
- electronic control
- stainless steel structure
- cast urethane gasket
- removable and washable condenser filter
- automatic defrosting and evaporation of meltwater
- easy-to-change gaskets
- nondetachable refrigerator at the right side of the device
- adjustable feet +20...-45 mm
- refrigerant R290
